Mohamed Zidane Marican

Robotics Student | Future Engineer | Lifelong Learner

About Me

Hi, I'm Zidane, a passionate Robotics Student enrolled in the Singapore Institute of Technology with a keen interest in Industrial design, AI and automation. Currently, am in a degree that will allow me to explore and hone my skills in fields such as programming and Systems Engineering.

Skills

- Solidworks, Autodesk Inventor, AutoCAD, Fusion360
 - Python, C, C++, SPIN
- 3D-Printing, Workshop Skills
 - ROS, ROS2
 - Git, GitHub

Interests

Outside of studies and projects, I tend to draw, sketch and/or sculpt in both 2D and 3D; and traditional or digital mediums. I like to pick up new hobbies which interests me which ranges from physical activities such as fencing to learning new languages and softwares that may benefit me.

About Me

Projects

The projects listed are varies from work to personal achievements.
